NEW SYSTEM OF RECESS

High School Innovation Rouses Criticism by Some Parents.

Twenty Minutes for Refreshments

Objection that Younger Pupils Have to Wait Till Older Ones Are Served—Faculty is Satisfied.

Some complaint is heard among the parents of pupils attending the high school in regard to the new system of twenty minutes recess at noon in place of the hour which the pupils formerly enjoyed for dinner.
The trouble and expense incurred in the caring of smallpox patients has led Mayor Jennings and other city officials to think favorably of the proposition made last spring by the Sisters of Mercy in charge of St. Bernard's hospital. This proposition was that if the county and city would erect a suitable frame building on land owned by the hospital, the sisters would care for all smallpox patients, both male and female, at moderate charges.
The city is confronted with the problem what it would do in case it had to care for female patients who might be suffering from smallpox and who had no home in this city where they could be taken care of. The hospitals could not receive them without having the whole building placed under quarantine and the city would be forced to secure some isolated building in which to place them under the care of a female nurse. This contingency has not yet arisen, but the city officials realize that with smallpox as plentiful as it is in the city and elsewhere of such kind might be thrown on their hands at any moment and they are not prepared to care for it.
Mayor Jennings has informally consulted with several members of the Board of County Supervisors and they have assured him they are favorable to accepting the proposition of the Sisters of Mercy. It is conceded that such an arrangement would not only relieve the city and county of much trouble, but that it would be by far the most economical method of caring for smallpox patients after the first outbreak of the epidemic of the disease.
Mayor Jennings and a committee from the Board of Health will bring the matter up before the Board of County Supervisors at the January session.

FAVORS THE SISTERS' PLAN

Mayor Jennings Willing to Have Them Care for Smallpox Patients at Moderate Fee.
